WHOLESALE CATALOGUE
For Gardeners and Truckers.

ENTRANCE TO EEL BAY, THOUSAND ISLANDS.

Lakeview Seed Farm, Rochester, N. Y.
P. O. Address:
HEMAN GLASS,
Near Rochester. Barnards Rural Delivery, N. Y.
To Our Patrons:

Until 1899 we followed the usual practice of issuing a Seed Catalogue with mail prices, and a Special Catalogue for Market Gardeners. During the past two years we have issued only a "Wholesale Catalogue for Market Gardeners," and given to all our customers alike the benefit of gardeners' prices. The change has worked so well that we do the same again this year. Our mail orders last year were the largest we have ever had, and we attribute it to the fact that we made "one price to all." It is the fair thing to do. We make a low price to professional gardeners, and then give all our customers the benefit of the low prices. Of course the margin of profit on the seeds is less, but the increase of the number of orders has more than made up for the smaller profit on single orders.

ALL SEEDS TESTED. We make personally a test of all our seeds, and exercise constant care to have them first class in every respect; and the fact that our customers remain with us year after year is evidence that our seeds can be depended upon.

OUR TERMS ARE CASH WITH THE ORDER, or C. O. D. by Express. If $1.00 is sent with the order, to cover return charges in case of failure to pay for the seeds when received. The $1.00 sent with the order will be allowed on the payment of the seeds when delivered.

SEEDS BY MAIL. At the prices given in this Catalogue seeds by mail, prepaid, but the price per quart and pound does not include the postage. Seeds by the pound and quart will not be sent by mail unless 8 cents per lb. and 12 cents per quart for Corn, and 15 cents per quart for Beans and Peas is added to the prices given, to pay the postage.

WHAT WE GUARANTEE. 1st—That the money sent to us for seeds will reach us safely, when sent as directed below. 2d—That seeds sent by mail or express shall reach our customers when sent by freight the Railroad Company is responsible for safe delivery. 3d—That our seeds shall be as represented, in so far that we will refill the order in other seeds, without charge, or refund the money paid for them, if they should prove otherwise than as represented. But we do not in any case give any warranty, either express or implied, concerning the crops.

HOW TO SEND MONEY. All sums of $1.00 and over may be sent at my risk and expense by Post-Office or Express Money Order, Draft on New York, or cash in a Registered Letter. Sums of less than $1.00 may be sent in stamps without registering the letter. But customers in Canada will please not send stamps as we cannot use them.

OUR POST-OFFICE. Our seed house is on our farm just north of the city line. A Rural Mail Delivery route passes our doors and it is the most convenient way of getting our mail. Our P. O. address is, "Barnards Rural Delivery, (near Rochester), N. Y."

"Make all money orders payable at "Rochester, N. Y."

January 1st, 1901.

Heman Glass.
These Packets are the Same We Sell at the Regular Price.

COLLECTION No. 1—For a Small Garden.
Sixteen Packets Choice Seed Sent Prepaid for 40 Cents.

1. Challenge Wax Bean—New. The earliest and one of the best wax beans.
2. New Eclipse Beet—Early, smooth, and grows to good size.
3. All Seasons Cabbage—Good for early use, and a good winter cabbage.
5. Perry’s Hybrid Corn—Ears of good size, Second early.
7. Hanson’s Cabbage-Head Lettuce—Slightly curled. Forms good heads.
9. Ice Cream Watermelon—The earliest and best watermelon for family use.
10. Prizetaker Onion—Bright yellow, and grows to large size. The best of all.
14. Summer Crookneck Squash—The best of the summer squashes.
15. Early Ruby Tomato—The earliest tomato grown.

COLLECTION No. 2—For a Large Garden.
Thirty Packets Choice Garden Seeds Sent Prepaid for 75 Cents.

2. Challenge Wax Bean—New, and a very fine wax bean. None better.
3. New Eclipse Beet—A general favorite with all gardeners.
5. Henderson’s Early Summer Cabbage—The best summer cabbage.
6. Fottler’s Brunswick Cabbage—An old standard, and one of the best.
9. Crosby’s Early Sugar Corn—The earliest good sweet corn.
10. Stowell’s Evergreen Corn—The old favorite for late corn.
12. Green Prolific Cucumber—The best and most productive for pickles.
13. Hanson’s Cabbage-Head Lettuce—Forms good heads and runs to seed slowly.
14. Prolific Nutmeg Musk Melon—One of the earliest and one of the best.
15. Paul Rose Musk Melon—The earliest of the large melons very productive.
16. Ice Cream Watermelon—The earliest and best watermelon at the North.
17. Prizetaker Onion—The best of the yellow onions.
21. Large Sweet Bell Pepper—The best and most popular for all uses.
22. Sugar Pumpkin—The best for pies; much better than the common field.
25. Mammoth Sandwich Island Salsify—The vegetable oyster, prized for soups.
26. Summer Crookneck Squash—The best summer squash.
27. The Hubbard Squash—The standard everywhere for winter use.
28. Early Ruby Tomato—The earliest of all tomatoes.
29. Livingston’s Beauty—A fine tomato for second or main crop.
30. Purple Top Strip-Leaved Turnip—The turnip everywhere grown.

COLLECTION No. 3—By Mail, Prepaid.
Fifteen Packets Choice Flower Seeds for 40 Cents.

Alyssum, Sweet, Nasturtiums, Dwarf, Poppy, the California, Purple, aca, Sweet Peas, Blanche Ferry, Sweet Peas mixed varieties, Zinnia, Pompon.
Asters, White Branching, Petunia, mixed.
Candytuft, mixed colors, Pansy, choice mixed, Zinnia, aurora.
Morning Glory, Pink’s, Chinese.
Mignonette, Sweet, Phlox Drummondii, Zinnia, aurora.
Glass' $ Seeds.

You SAVE MONEY buying our Seeds....
You MAKE MONEY planting them. . . . . .

The Prices in this Catalogue are GARDENERS' WHOLESALE PRICES.

SEEDS BY THE PACKET AND OUNCE ARE SENT BY MAIL PREPAID.

But when seeds by the pound and quart are ordered sent by mail, 8 cents per pound, and 12 cents per quart for Corn, Beans and Peas must be added to the following prices to pay the postage. But in most cases the seeds can be sent by freight or express, and thus save the postage.

Half pounds at pound rates, pints at quart rates, four quarts at peck rates, half bushels at bushel rates.

ASPARAGUS.

Packets, 3 cents.

The seed should be sown early in the spring in good, strong soil. The plants, if good care is taken, will be ready to set in a permanent bed the following spring. Make trenches 3 feet apart with a plow or spade, 8 inches deep, and set the plants in the bottom of trenches, 20 inches apart, and cover the roots lightly with earth. When the plants are a foot or more high, hoe the earth into the trenches, filling them one-third full. Afterwards fill the trenches nearly full of rotted manure, or give liberal application of phosphate, and cover with earth. Every spring give a heavy coat of manure, and cultivate thoroughly. Cut lightly the first two years, after that keep the bed cut clean as long as you want asparagus. When well established, it can be cut for six weeks with out injury.

BEETS.

Seeds in Packets and Ounces sent by mail prepaid. The price by the pound does not include postage. If wanted by mail, 8 cents per lb. must be added to the prices given to prepay the postage.

Beets are grown in every garden, and are used in all stages of their growth. The soil should be rich, mellow and deep. They are among the first vegetables to be sown in the spring. If a heavy rain should fall soon after sowing the seed, and the surface of the ground become crusted over, the ground must be raked lightly with a steel garden rake to break the crust over the seed. If this is not done the young sprouts may not be able to push up through the crust on the surface.

From this cause seed sometimes fails to come up, and the sower thinks his seed was bad, when the trouble was not in the vitality of the seed but in the experience of the sower.

SUGAR BEETS.  

We have taken pains to secure seed of the beets best adapted for sugar making in this country. The KLEIN WANZLEBEN and VILMORIN’S WHITE SUGAR are the beets mainly grown for that purpose. A beet for sugar must be grown wholly under ground. Those beets that grow partly above ground cannot be used for making sugar.

Klein Wanzleben—Contains 16 to 18 per cent. oz. lb. of sugar and yields 12 to 18 tons per acre...

Vilmorin’s White Sugar—Contains same amount of sugar and yields 10 to 16 tons per acre...

Red Top Sugar—Grown for cattle; a heavy cropper. Grows out of the ground like Mangel Wurzels...

MANGEL WURZEL.  

The ground should be made rich for Mangels. They require plenty of potash. As a special fertilizer use muriate of potash or wood ashes.

Mammoth Yellow Giant—A mammoth size yellow mangel...

Mammoth Long Red—The largest of all the mangels...

Carter’s Imp’d Orange Globe—The richest of the mangels...

Golden Tankard—Intermediate in size between the long and the globe mangels...

BROCCOLI.  

Broccoli produces heads like the cauliflower, but is more hardy. Cultivate same as cauliflower, except that the plants should not be grown or set too early, as it does the best in the cool weather of autumn.

Early Purple Cape—The most reliable to head. Pkt. 10c.

BRUSSELS SPROUTS.  

Used for greens; grows two or three feet high and produces oz. lb. on the side of the stalk sprouts resembling small cabbage heads. Pkt. 5c.
**CABBAGE.** Packets 5 cents each, except when noted.

The cabbage in greatest demand for winter shipping is the Danish Ballhead, or Hollander. Fottler's Brunswick, All Seasons, and Warren are larger cabbages and yield more tons to the acre, and are fine cabbages for fall shipping.

Succession is also largely grown for fall shipping, as it can be set later in the season and still make solid heads of good size.

For the green cabbage worm, so destructive in some localities, I have found Pyrethrum or Persian Insect Powder a perfect remedy. It is not poisonous, and may be used with perfect safety.

Eight cents per pound must be added to the following prices if ordered sent by mail.

**EARLY CABBAGE.**

CARROTS.

Packets 4 cents each prepaid.

Carrots require a deep, rich soil. I grow them very successfully on muck land, and have grown over 900 bushels to the acre. Sow from the middle of May to the first of June, in drills 18 inches apart, and thin to three inches in the rows. Keep free from weeds, and the tops will soon shade the ground and further weeding will be unnecessary.

CHANTENAY.

CHANTENAY.

DANVERS ORANGE.

Early Scarlet Horn—Best for early oz. 1b. table use ............... 8 50

Chantenay Stump Rooted—Best bunching carrot... 8 60

Danvers Orange—Fine field carrot and great cropper. 8 55

Long Orange—Standard variety and largely grown 8 50

Oxheart, or Guerande—Short, easy to pull, best keeper.................... 8 60

Half Long Scarlet Nantes—Stump-root, bright orange, fine for market.................................................... 8 50

Large White Belgian Green Top—Grows partly out of ground; largest carrot ........................................ 8 40

Remember that the prices in this Catalogue do not include the postage on seeds by the pound and quart. When ordered sent by mail add 8 cents per pound and 12 cents per quart for Corn, Beans and Peas, for postage.

But Seeds in packets and ounces are sent by mail, prepaid, at the prices given.

We now have a Rural Mail Delivery at our doors, and our Postoffice address is “Barnards Rural Delivery, near Rochester, N. Y.”
Cauliflower.

Quarter and half ounces at ounce rates.

I have tested over thirty varieties of Cauliflowers. Many of the varieties were almost worthless and it is useless to attempt to grow them with any profit. Cauliflowers do the best on low, moist land, as they require plenty of water. Very little can be done in heading Cauliflowers during the hot weather of the summer. They do the best during the cool weather of the late autumn. They delight in a rich soil. The cultivation is the same as for cabbages.

Henderson's Early Snowball—The best of all the Cauliflowers and the surest to head............. 20 $2 25 $8 00
Extra Early Dwarf Erfurt—Early and sure header. As reliable as the Snowball......................... 15 1 75 6 50
Extra Early Paris—Very early.......................... 10 75 2 25
Large Algiers—The largest and best late Cauliflower. 10 80 2 50

Cress, or Peppergrass.

A well known pungent salad. Pkt. 4c, oz. 10c.

We have room here to say a word about ourselves and why we are selling seeds. We have lived on Lakeview Seed Farm, situate on the Lewiston Ridge Road, one-fourth of a mile north of the city of Rochester, thirty-four years. For thirty years of that time we have been engaged in Market Gardening. Early in our experience we found it difficult to get seeds that could always be relied upon, and we commenced to grow our own seeds, selling to our neighbors any surplus we had; and for over twenty years we have been raising and selling seeds.

Our long experience in gardening has given us a practical knowledge of garden vegetables which we believe has often been profitable to our customers. We know how essential to success good seeds are to the Market Gardener, and we spare no pains to secure the best that can be grown or found. Our confidence in our seeds is shown by the fact that we grow our own crops from the same seeds we sell to our customers; and we would not risk a crop from seeds that we did not have every reason to believe were all right. We grow profitable crops from our seeds; we believe our customers can do the same.
The Golden Yellow Self-Blanching we offer this year is Proven Seed, that is, we have grown CELERY from it ourselves.

The CELERY grown from the seed was of strong growth, solid and firm, with less than one-half of one per cent. of green celery. There is no better seed.

Price, pkt. 10c., oz. 40c., lb. $5.00.

GOLDEN YELLOW SELF BLANCHING CELERY.

From many letters received endorsing this seed I have room for only the following:

PALMETTO, Fla., Sept. 11, 1900.

MR. HEMAN GLASS—I wish to tell you how excellent your Golden Self-Blanching Celery Seed was the past season. I ordered 6 lbs. and planted out about 8 acres and did not discover a single hollow stem or soft plant.

HAROLD C. CLARKSON.

DEAR SIR:—I write to ask you if you can furnish me the same celery seed (Golden Self-Blanching) as last summer. The seed was good and made good celery without any hollow stems. R. L. NASH, Florida.

We have also a new bag of seed from the same grower, of which the importer says: "We have had it on trial on our own grounds, and we know it is practically identical with the seed sent you before." This seed we will sell for $4.00 per lb.

Packets 5 cts. each, except when noted.

SWEET CORN.
Large packets 6 cents each, prepaid.

Corn by the Packet will be sent by mail prepaid at the prices given; but Corn by the Pint and Quart will not be sent by mail unless 6 cents per pint and 12 cents per quart is added to the prices given, to prepay the postage.

We have a New Early Evergreen Corn which will be found profitable by market gardeners. The ears are equal in size and quality to Stowell's Evergreen, and it is one to two weeks earlier. **Kendal's Early Giant** is also an early large-eared corn of fine quality.

</table>
CUCUMBERS.  

So long as Cucumbers are wanted for the table do not let any go to seed, as that impairs the fruiting of the vine.

Cucumbers require a warm, rich soil. In this climate it is useless to plant in the open air much before the first of June. Plant plenty of seed, and when all danger of insects is past, thin to four plants in the hill. For pickles plant the last of June. Early Cucumbers for market are grown in greenhouses and hotbeds.

The price of packets and ounces includes the postage, and they will be sent by mail prepaid, but the price per pound does not include postage; 8 cents per pound must be added if ordered sent by mail.

Early Green Cluster—Early and grows in clusters 8 35
Early Frame or Short Green—Good for cucumbers or pickles 8 35
Early White Spine—Fine for slicing; used for forcing 8 40
Cool and Crisp—A fine strain of the White Spine; tender and crisp 8 35
Improved Long Green—Best long for cucumbers or pickles 8 40
Green Prolific or Boston Pickling—Unsurpassed for pickles; a great cropper 8 40
Chicago Pickling—Largely grown for pickles 8 45
Japanese Climbing—A good cucumber, climbs as well as runs 8 60
Gherkin or Burr—A small prickly fruit for pickling 8 75

ENDIVE.  

A useful salad for fall and winter use; also used for garnishing. Sow the seed in June or July, and when partly grown, thin the plants to a foot apart. The blanching is done by tying up the leaves in the form of a cone.

White Curled—The most ornamental 15 $1 40
Large Green Curled—Hardy, crisp and tender 15 1 40
Broad Leaved Batavian—Broad, slightly wrinkled leaves 12 1 25
EGG PLANT.

A tender plant which, when well grown and properly cooked, is one of the most delicious garden vegetables. Sow the seed like tomato seed, in a hot-bed, and give the same treatment as the tomato. The plant should be protected from the potato bug, as they eat them as greedily as potato vines.

Improved New York Purple—Very large and fine; the best variety. Pkt. 10c., oz. 30c.

KALE or BORECOLE.

Packets 4 cents each.

Grown extensively as German Greens or “Sprouts.”

**Dwarf Green Curled Scotch**
Leaves bright green, curled and hardy; very ornamental...... 8  60

**Dwarf Siberian or Sprouts**
Large green leaves; hardy...... 8  60

KOHL RABI. Pkts. 5 cts. each.

Like a turnip growing above the ground.

**Early Purple Vienna**—Fine and tender......................... 15 $1 70

**Early White Vienna**—Like above except in color............. 15 1 70

LEEKS.

Leeks are used in soups, being considered superior to the onion for that purpose.

American Broad Flag—The variety generally grown. Pkt. 5c., oz. 12c., lb. $1.20.

Those who have sowed your seeds in this section for the past ten years are not satisfied with any seeds but yours.

AUG. PACHoud.

Your seeds received in due time, and there were twice as many as I ever bought before for the same money.

G. H. Slack, Vt.

From the seed I got of you two years ago, I had the best garden I ever had. I have recommended your seeds to a good many.

Joseph Jackson,
Fond du Lac, Wis.
LETTUCE. Packet 5 cents, except when priced otherwise.

We have tried many Lettuces to get the best forcing Lettuce. From our trials we consider the Rochester Market and the Tennis Ball the best head Lettuce for forcing and the Grand Rapids the best upright forcing.

Rochester Market—The great Forcing Lettuce for this locality. Heads medium size, compact, hardy and quick growth. Pkt. 10c ................................................. 20
Early Tennis Ball—A quick growing small forcing head lettuce ................................................................. 10 $1 00
Grand Rapids—Best upright forcing .................................................................................................................. 10 1 00
Big Boston—A fine head lettuce for forcing in hotbeds and cold frames ......................................................... 15 1 25
Early Curled Simpson—Quick growing and finely curled. 10 80
Black Seeded Simpson—A large bush lettuce, very tender 10 80
Mam. Black Seeded Butter—A large summer head lettuce; one of the best .......................................................... 10 1 00
Salamander—Very much like the Black Seeded Butter; slow to run to seed, and stands heat well .................. 10 1 00
Hanson—One of the largest and best summer head lettuce. 10 80
The Deacon—A solid head lettuce for summer use; very fine 10 1 00
Vick’s Premium Cabbage—A fine summer lettuce; compact heads ............................................................... 10 80
Hubbard’s Market—Same as the above .................................................. 10 80
Paris White Cos—The Cos Lettuce grows upright and forms conical heads .................................................. 10 90
Early White Self-Folding Cos—A pointed head lettuce, very fine for early spring, open air lettuce ............. 10 1 00

MUSHROOMS.

For directions “How to Grow Mushrooms,” see pamphlet or book in list on page 3 of cover.

Mushroom Spawn—The English spawn is considered the best for this country. It comes in bricks of about one pound each. Price of bricks 25 cents each, by mail, prepaid; by express, not prepaid, 15 cents each.

MUSTARD.

A pungent salad, used the same as cress.

White Mustard—The best for salad. Pkt. 3c., oz. 5c., lb. 20c.
MUSK MELONS. Packets 4 cents each, prepaid.

Do not plant Musk Melons near Cucumbers or Squash. The small melons like Banquet, Prolific Nutmeg and Cosmopolitan are the best for the family garden.

The Banquet—Extra early, small size, yellow flesh, very fine

Prolific Nutmeg—Extra early, medium size, green flesh, delicious

The Cosmopolitan—Early, small, finely netted, green flesh, very sweet

Rocky Ford, or Netted Gem—A new melon largely grown in the West. A good sized melon, deeply ribbed and finely netted. Flesh green and very delicious

Paul Rose—New. Good size, flesh rich orange

The Surprise—Quite early, prolific, yellow flesh

Grand Rapids Early—The earliest large sized melon; yellow flesh

Early Jersey Hackensack—Early, good size, green flesh, nutmeg

Montreal Green Nutmeg—Medium early, good size, green flesh, nutmeg

Osage, or Miller’s Cream—A good size, yellow flesh melon

Emerald Gem—A fine medium sized yellow flesh melon

Large Cantaloupe—The largest of the Musk Melons

McCotter’s Pride—Large sized yellow flesh melon

If seeds by the pound are ordered sent by mail, add 8 cents per pound to prepay the postage.
WATER MELONS. Packets 4 cents each.

Water Melons being of tropical origin, require a quick, warm soil to ripen thoroughly in this climate. I have found that it is nearly useless to attempt to grow the large Southern Water Melons as far north as Rochester. They do not ripen sufficiently to become sweet and tender. The two melons best adapted to our climate are the Ice Cream and Hungarian Honey. They will do the best in a light sandy soil, if the hills are made rich with manure. Make the hills with two or three shovelfuls of fine, well-rotted manure well mixed with the soil, the hills to be raised slightly above the surface of the ground.

All packets of Water Melon Seed 4 cents each, and sent prepaid. Packets and ounces sent by mail, prepaid.

I was really much pleased with your seeds last year, I shall get all my seeds from you this year. I shall want quite a quantity in the fall.

G. C. Jennings, Jacksonville, Fla.

Your seeds gave perfect satisfaction last year. They were the best I ever bought.

A. D. Bradish, Windsor, Vt.

We have had your seeds a number of years and all speak highly of them; large packages and sure to come up.

S. O. Davis, Windham Co., Vt.
ONION SEED. Packets 5 cents each, except when noted.

There is no vegetable where the quality of the seed has more to do with the result of the crop than the Onion. Seed that looks all right may produce a crop of thick-necked, immature onions that will be nearly worthless. Only the best seed from the best stock is safe to sow. The difference in the seed may, and often does, make a difference of hundreds of dollars in the value of the crop.

GLOBE DANVERS.

RED GLOBE.

WHITE GLOBE.

All packets of Onion seed 5 cents each, unless priced differently. Packets and ounces sent by mail prepaid at the prices given. The pound price does not include postage.

The Prizetaker—A very valuable onion. Color, light yellow, large size, and yields 50 per cent. more than other yellow onions. Flavor mild, resembling imported onions. 15 $1.50

Yellow Globe Danvers—The most popular onion grown. 10  1.00

Ohio Yellow Globe—A very fine strain of the Globe Danvers. 10  1.10

Southport Early Red Globe—A strong-growing early Red Globe. Packet 10c 15  1.30

Large Red Wethersfield—A large onion; great cropper. 12  1.20

Yellow Dutch, or Strasburg—A fine flat onion; early for bunching. 12  1.10

White Globe—Fine Globe onion, and mild flavor. Pkt. 8c 20  2.25

White Portugal, or Silver Skin—The mildest flavored onion; flat shape. Pkt. 8c 20  2.00
FOREIGN ONIONS.

Early Marzajola—A small, early oz. lb.
white onion for bunching .......... 15 $1.50

Mammoth Silver King—A large
white onion for summer bunching 20 1.75

Giant Rocca of Naples—A large
brown globe onion; mild .......... 15 1.40

ONION SETS.

Yellow Bottom Sets—Per qt. 15c., per qt.,
prepaid, 25c.

White Bottom Sets—Per qt. 20c., per qt.
prepaid 30c. Price per bushel given on ap-
pllication.

OKRA.

White Velvet—Earliest and best for the North. Pkt. 4c., oz. 8c., lb. 40c;

PARSLEY.

Used for garnishing and seasoning soups and
salads. Sow the seed early in the spring as it
germinates quite slowly.

Carter's Champion Moss Curled—
the most elegant Parsley grown. Pkt.
4c., oz. 10c., lb. 60c.

500,000 Vegetable Plants.

Cabbage Plants—I shall have on hand a large supply of hardy plants,
grown in the open air: All Seasons, Danish Winter, etc., per 100, 20c,
if by mail, 35c; per 1,000, $1.75. In lots of 5,000, $1.50 per 1,000; in
lots of 10,000, $1.25 per 1,000.

Cauliflower Plants—Hardy plants, grown in the open air: Henderson’s
Early Snowball, per 100, 75c; if by mail, prepaid, $1.00 per 100.

Celery Plants—Golden Self-Blanching, Golden Heart, per 100, 25c; if by
mail, 35c; per 1,000, by express, charges paid by purchaser, $2.00; in
lots of 5,000, $1.75 per 1,000; in lots of 10,000, $1.50 per 1,000.

Tomato Plants—Grown under glass, plants ready May 20th. Per 100,
not prepaid, $1.00; per 1,000, not prepaid, $7.50.
PARSNIPS. Packets 3 cents each.

Parsnips should be sowed early in the spring, as the seed is difficult to germinate after the ground becomes dry.

- Long Hollow Crown—The old standard variety
- Long White Dutch or Sugar—Grows long, smooth and white

PUMPKIN. Packets 4 cents each.

- The Sugar—Small; fine for pies
- The Pie Pumpkin, or Pie Squash—By some considered best for pies
- Large Tours or Mammoth—The Jumbo of pumpkins
- Connecticut, or Common Field—The common stock pumpkin

PEPPERS. Packets 5 cents each; half ounces at ounce rates.

Peppers are tender annuals. The seed should be sown in hot-bed or greenhouse, and not transplanted until the weather and soil are warm.

- Large Sweet Bell or Bull Nose—The most prolific of all peppers
- Sweet Mountain or Mammoth—Like the Sweet Bell but larger
- Ruby King—Large and sweet, can be used as a salad
- Long Red Cayenne—Long, slender, bright red
- Red Chili—Small; used for pepper sauce
- Red Cluster—Ornamental as well as useful

LARGE SWEET BELL.

Please remember that seeds by the packet and ounce are sent by mail prepaid; but when seeds by the pound and quart are ordered sent by mail, 8 cents per pound and 12 cents per quart must be added to the prices given to pay postage.
PEAS. Large Packets, 2½ ounces, 8c each and sent prepaid.

Peas by the packet will be sent by mail prepaid at the prices given; but Peas by the pint and quart will not be sent by mail unless 6 cents per pint and 12 cents per quart is added to the prices given, to prepay the postage.

Sow the early, smooth, hardy peas, like the Maud S and Alaska, as soon in the spring as the frost is fairly out of the ground. But if the wrinkled varieties are sown quite early it must be on a dry soil, as they are more liable to rot than the smooth peas. They are, however, much the sweetest and best flavored peas.

NOTT’S EXCELSIOR.

RHUBARB.

Myatt’s Victoria. .......... .......... .......... Pkt. 5c 10 $1 00

SPINACH.

Packets 3 cents each.

Savoy Leaved—Earliest; quick growth, upright leaves; best for early spring sowing, 5 18
Early Giant Thick Leaved—Broad, heavy leaves; rapid grower, 5 16
The Victoria—The best winter spinach. Slow to run to seed, 5 18

SALSIFY, or Vegetable Oyster.

Packets 5 cents each.

White French—Roots small and tender, 8 $0 80
Mammoth Sandwich Island—Roots larger than the above, 10 1 25

SUNFLOWER.

Packets 3 cents each.

Makes excellent food for poultry, and easily raised.

Common Black Seed — The Sunflower grown everywhere, 5 20
White Russian—Very large blossoms, 5 20
LAKEVIEW SEED FARM, ROCHESTER, N. Y.

SQUASHES.

Packets
4 cents each.

Winter Squashes are very tender, and it is useless to plant them until the soil is quite warm and all danger of frost is passed. There is no need of hurrying in planting, as they make a rapid and luxuriant growth. Plant in well manured hills, the same as for cucumbers and melons: the bush varieties 4 feet apart each way and the running sorts 9 feet apart.

Your seeds this year are all very good, and we have had the finest beets we have ever grown.

A. J. KLUG, Market Gardener, Buffalo, N. Y.

I raised a splendid crop of Onions last year from your seed, also a good crop of All Seasons Cabbage.

L. F. SMITH, Steuben Co., N. Y.
TOMATOES. 

I have tried many new Tomatoes to find one earlier than the Ruby, but so far have failed to find one. The Atlantic Prize is practically the same as the Ruby. The cut below shows the manner of its growth. The leaves being small, admit the sunlight and heat to the fruit, ripening it very early.

**Breadstone, or White Rock**—A long keeping white Ruta-Baga. Fine grained and very sweet. Oz. 6c., lb. 40c.

**Monarch Purple Top**—A large-growing purple-top Ruta-Baga. Oz. 6c., lb. 40c.

**White Sweet Swede**—Called white Russian; largest white Ruta-Baga. Oz. 6c., lb. 35c.
SMALL FRUITS.

STRAWBERRIES.

A crop of strawberries can be grown as easily as a crop of potatoes and every farmer ought to grow all his family can use, and some for his neighbors.

The easiest way for the average cultivator to grow them is in the matted row. Set the plants 1 foot apart in rows 4 feet apart, and train the runners in the line of the row. Let them make a matted row 1½ feet wide, leaving an alley between the rows 2½ ft. wide, which should be kept clean by frequent cultivation. We list only three popular berries grown here for market. There are no better. They are perfect flowering varieties.

The Clyde—New, and much sought after; berries large size and bright red; very productive. Plants 50c. per dozen, by mail prepaid; 75c. per 100, not prepaid; $4.50 per 1,000.

Brandywine—A new berry of great merit; a great market berry. Plants 35c. per dozen, by mail prepaid; 50c. per 100, not prepaid; $3.50 per 1,000.

The Wilson—Grown everywhere. Like wine, the older it gets the better it grows. Plants 30c. per dozen, by mail prepaid; 40c. per 100, not prepaid; $3.00 per 1,000.

RASPBERRIES.

BLACK.

Ohio—A large size berry, early, considered the best variety for drying. Strong tips 40c. per dozen, by mail prepaid; $1.00 per 100, not prepaid.

RED.

Cuthbert—The best of all the red raspberries, either for home use or for market. Berries large and solid. It is enormously productive. Plants 40c. per dozen, by mail prepaid; $1.00 per 100, not prepaid.

BLACKBERRY.

Snyder—The best blackberry for the North, as it is vigorous and hardy and always reliable. Berries medium size, but sweet, juicy, and when fully ripe without a hard core in the center. It will stand a temperature of 20 degrees below zero without winter killing. Strong roots 50c. per dozen, by mail prepaid; $1.00 per 100, not prepaid.

I have not given above a long list of berries, as is usual, but just those varieties I grow myself and would recommend as the best for everyone. They are standard and can be relied on.
SEED POTATOES.

Owing to drought and blight last season our seed potato crop was almost a failure. Of several varieties we harvested barely enough for our own seeding; and we do not offer them for sale. We have sometimes bought potatoes to fill orders, but we are so liable to get potatoes that are not true to name that we prefer not to do it.

Orders will be booked in the order received and as long as our stock holds out. The potatoes will be shipped as soon as it can be done without danger of freezing. Please state how you want your potatoes shipped, whether by express or as freight, and be sure to give the station to which you want them sent, as it is often different from your P. O. address.

All varieties 25 cents per pound when sent by mail prepaid.

**German or Golden Millet**—Net cash price on application. 50 lbs. to the bushel.

**Rape, Dwarf Essex or English**—Makes a quick, rapid growth, and is fine feed for either sheep or hogs. Can be sown in June or July; about 5 lbs. will sow an acre. 8c. per lb.; if sent by mail 16c. per lb.

The above prices do not include the bags. Add 15 cents for each 2-bushel bag needed.
FLOWER SEEDS.

Annuals embrace the larger part of the flowers usually grown in our gardens. They make a quick growth, blossom the first year, and then ripen their seed for future seeding. Some of the Annuals are also beautiful climbers. In the following list Perennials are marked P.

**SWEET ALYSSUM**—Flowers pure white and very fragrant. 5

**ASTERS.**
- **New White Branching**—Very large flowers, resembling Chrysanthemums. 8
- **New Pink Branching**—Same as above except in color. 8
- **Truffaut’s Perfection**—A Paeony flowered Aster; very double; mixed colors. 8

**Truffaut’s Snow White** ........................................ 8

**BALSAMS.**
- **Double Camellia**—Very double, white and blotched. 8

**BACHELOR’S BUTTON.**
- **Centaurea Marguerite**—Large white flowers resembling Carnations; fragrant. 5

**CALLIOPSIS.** Pkt.
- **Very showy plants with yellow blossoms** .... 5

**CANDYTUFT.**
- **Fine for borders; mixed** ........... 5

**CASTOR BEAN.**
- Large, tall showy plants. Oz. 10c... 5

**COSMOS.**
- One of the finest autumn flowering plants, ornamental foliage; mixed colors. 5
- **Pure White** ........................................ 10

**MORNING GLORY** (Convolvulus)—Mixed colors. 5

**DOUBLE DAISY.** P.
- Charming little plants for borders and edging; pure white. 10
GOURDS.

Nest Egg ........................................ 5
Siphon, or Dipper .................................. 5

DOUBLE HOLLYHOCK. P.

Chater's Superb Strain — Very choice;
mixed .............................................. 5
Double Pure White ................................. 5

MIGNONETTE.

Reseda Odorata—Flowers very fragrant .. 5

NASTURTIUM.

Dwarf—Mixed. Oz. 10c ............................ 5
Climbing—Mixed. Oz. 10c .......................... 5

Verbena Hybrida ................................... 10
ZINNIA—A very showy, half-hardy annual of easy cultivation; in flower all summer.

Double Pompon — A fine strain; very double .............. 5
SWEET PEAS. Packets and ounces, by mail, prepaid.

But the price of Sweet Peas by the pound does not include the postage, and they will not be sent by mail unless 8 cents per pound is added to the prices given to prepay the postage.

Note—The light-colored Sweet Peas are liable to rot if covered too heavily with earth. The best way is to cover them lightly with fine rakings or moss, and shade till sprouted. When covered in that way they are as reliable to sprout and grow as the dark-colored peas.

**WHITE SWEET PEAS.**

**Blanche Burpee**— Clear white, oz. 8c., lb. 45c.

**Emily Henderson**—The best white pea. Oz. 8c., lb. 45c.

**The Bride**—A delicate pure white. Oz. 8c., lb. 45c.

**LIGHT YELLOW.**

**The Coquette**—Standard Primrose, with shade of purple. Oz. 8c., lb. 45c.

**Mrs. Eckford**—Delicate shade of Primrose yellow. Oz. 8c., lb. 40c.

**Primrose**—Yellowish white. Oz., 8c., lb., 40c.

**LIGHT SHADES OF PINK.**

SWEET PEAS Continued on page 20.
ROSES.  WE HAVE THE CREAM OF THE ROSES.  YOU CANNOT GROW TOO MANY OF THEM.

The Rose is Queen of Flowers. The Hybrid Perpetuals are perfectly hardy. Flowers large size, very full and double at the center, of beautiful colors, from pure white to dark crimson.

HYBRID PERPETUALS.

One-year old plants, 15 cents each; 3 for 40 cents; $1.50 per dozen, prepaid.

Coquette des Alps—White, occasionally tinged with pink.
Coquette des Blanches—Pure white, sometimes delicately tinged with pink.
Duchess of Albany—Flowers deep pink, very large and full.
Fontenelle—Carmine red, full and double.
Gen. Jacqueminot—The most popular rose in cultivation. The buds are much admired. Flowers rich crimson scarlet.
La Reine—Deep rose lilac.
La France—Silvery rose changing to pink. Beautiful in both bud and flower.
Madam Plantier—Hybrid China—Summer bloomer. Pure white.
Paul Neyron—Immense double flowers. Bright shining pink; finely scented.
Perfection des Blanches—Pure snow-white flowers. Large and very fragrant.
Victor Verdier—Large, bright rose color, with crimson center.
Vick's Caprice—Soft pink striped with white and carmine. Much admired.

MONTHLY ROSES.

Plants 15 cents each; 3 for 40 cents; $1.50 per dozen, prepaid.

Catharine Mermet—One of the finest varieties in cultivation, with buds of the largest size and handsomest form. The petals are gracefully recurved, so as to show a lovely bright pink center, which gradually shades toward the outer edge to a very light pink.
The Bride—This is a sport from Catharine Mermet, and is identical with that variety except in color. The flowers are very large, pure white, and very lasting after being cut.
Henry M. Stanley—Flowers very large. The color is entirely new and distinct, being a delicate shade of amber-rose tinged with apricot-yellow.
PLANET JR. TOOLS.

"PLANET JR," No. 2 SEED DRILL.
Price, $7.00.

The No. 2 Seed Drill is similar to the Combined Drill, except that there is no cultivating attachment. The seed drum is larger, holding two quarts instead of one. It is a perfect seed sower in every respect, and will give perfect satisfaction. It has no cams, levers, brushes or springs to get out of order, but is always ready for use. Having used it on my farm I can recommend it after thorough trial as a first-class drill.

"PLANET JR" No. 4 HILL DROPPING SEED DRILL, HOE, CULTIVATOR, RAKE and PLOW.
Price Complete, $11.00; as a Drill only, $8.00.

It combines conveniently in a single garden implement, a capital hill-dropping and a continuous row seeder, with the most perfect and complete single wheel hoe, cultivator, rake and plow that the most practical can desire.

What the Drill will do.
It will sow a continuous row with great regularity; but its distinctive feature is that it will also drop neatly in hills. It opens the furrow, drops either in hills or drills at pleasure, covers, rolls down, and marks the next row, all at one operation.

SINGLE WHEEL HOE, PLAIN.
Price, $3.00.

We sell more of this Wheel Hoe than any other style. It is light, runs easily and does the work thoroughly. It is considerably lighter than the Double Wheel Hoe, but does almost the same variety of work, being used mostly between the rows, yet it can be used to hoe both sides at once, while plants are small, by placing the wheel at one side of the frame. The form of the hoes insures a forward slanting cut next to the plant, and consequently close work without danger, and thorough cultivation of the soil.
ON GARDENING.

Henderson's Gardening for Profit. The best manual for the market gardener ever published $1.50
Henderson's Practical Floriculture ........................................... 1.50
Henderson's Gardening for Pleasure. A work for private use; giving full directions for the cultivation of flowers, fruits and vegetables ......................................... 1.50
